

HERMETIX^{7PLUS} SAFEGUARD

HERMETIX^{7PLUS} SAFEGUARD is the one-hour cure for the hospitality industries' guest rooms that are contaminated by highly contagious microorganisms, e.g. COVID-19, Norovirus, Clostridium Difficile, Pneumonia, Influenza, etc.

HERMETIX^{7PLUS} SAFEGUARD

- 8 Gallons of **HERMETIX^{7PLUS}** (99.99999%) microbe kill via an EPA registered blend
- A supreme **V-BLASTER** Ultra-Fine mist diffuser that averages 6-micron droplets
- CDC recommended Adenosine Triphosphate pre/post disinfected test swabs
- ISO 6 channel Handheld Particle Counter for pre/post disinfected air analysis
- Remote control apparatus for Ultra-Fine mist diffusing
- PPEs for handheld Ultra-Fine mist diffusing

As recommended in the American Hotel and Lodging Association **SAFE STAY** Room Recovery Protocol¹, the **HERMETIX^{7PLUS} SAFEGUARD** scientifically validates the comprehensive disinfecting of the once contaminated guest room including any dedicated room air conditioning units. In addition, the **HERMETIX^{7PLUS} SAFEGUARD** leaves an invisible residual antimicrobial surface shield which remains intact until it is acted upon by marauding microbes, dirty hands, fingers, dust cloths, vacuums, soap and water, etc. This remarkable antimicrobial shield delivers a **HERMETIX^{7PLUS} SAFEGUARD**.
